EAST KERRY UPDATE Beheenagh Bridge N72

Cllr Niall Kelleher is delighted to confirm that progress has been made in the extension of a dangerous bridge on the N72 at Beheenagh between Rathmore and Barraduff.

A Part 8 came before the Killarney Municipal District last Wed the 7th June once approved the project can proceed for development. This bridge has been the scene of many accidents over the years. When the bridge is widened it will allow for the re-alignment of the road to make it safer for all road users.

As a regular motorist on this stretch of road I'm acutely aware of the importance of this realignment and the development of the lay by will be of great relief to those who visit the iconic grotto on this stretch of road.

I want to thank Kerry County Council for the foresight in ensuring this project is brought to fruition.

Cllr Niall Kelleher mobile: 087 6694101

telephone: 064 6694101

Cllr. Maura Healy Rae raised the following motions at the Killarney Municipal District meeting on 7th June which are of interest to the community. She asked if Kerry County Council could make funding available for the Maughantourig Road as it is in a desperate state. She asked if it would be possible to get funding from CLAR or could any discretionary funding be provided by Kerry County Council this year. Kerry County Council replied by saying that currently there is no funding to carry out resurfacing works on the Maughantourig Road. However, the roadway can be considered for inclusion in the Multi-Annual Restoration Improvement Programme, which is due for renewal at the end of this year. She noted that she had requested that this road be considered for this programme. Kerry County Council agreed that they will carry out minor maintenance works until funding for resurfacing works would be made available.

Secondly, she highlighted the issue with the Cullawa River and when will more works to clear the river be carried out as what works had been done were a significant help but that more works to remove silt and the rover were still remaining to be done. She

also noted that a commitment to do these works had been given and that the silt should be removed in the open season. Kerry County Council replied by noting that in 2013 a sum of 40,000 euro was made available by the OPW to Kerry County Council to remove bushes, shrubbery and overhanging branches along the channel of the Cullawa River. These works were completed. She asked that further funding is required to complete the clearing of the river. Kerry County Council said that an application for further funding will be made to the OPW for additional works.
