Rathmore & District Credit Union
Reason why Credit Union Car Loan is the way to go:

1. You own it

Unlike other finance options such as hire purchase or personal contract plans, with a credit union car loan, you own the car from day one. It's yours to do with as you please.

2. No Sneaky fees:

There are no administration charges, hidden fees and no balloon payments.

3. Flexible repayment terms

You can pay off your car loan early, make additional lump sum repayments or increase your regular repayments, without a penalty. Other finance providers may charge you extra for paying them back faster. **Some things to consider before signing a Personal Contract Plan (PCPs)** To extend the term of a PCP you may be charged a rescheduling fee.

Take note of the cap on the number of miles/kilometres you are allowed to clock up over the period of the contract. You may be requested to commit to certain car servicing agreements. Ensure you always enquire about additional fees and charges, you are entitled to a list of all additional charges to ask the garage for this before you sign any agreement.

4. Competitive rates (and maybe even a loan interest rebate)

As well as offering very competitive car loan rates, many credit unions offer loan interest rebates at the end of the financial year.

5. Free Loan Protection Cover

Your credit union has taken out, at no extra cost to you, a loan protection insurance policy to protect and provide you with added peace of mind when you borrow. This free life assurance cover is unique to credit unions and is designed to pay off your loan in the unfortunate event of your death, thus relieving you of unnecessary future worry and relieving your loved ones of the burden of a debt owing. Please check with your credit union to ensure you are eligible for this cover as some terms and conditions will apply.
