NOVENA TO THE SACRED HEART

Dear Heart of Jesus in the past I have asked many favours. This time I ask you this special one, (mention favour). Take it dear heart of Jesus and place it within your own broken heart where your Father sees it. Then in his merciful eyes it will become your favour not mine. Amen. Say this prayer for three days. Publication of prayer and favour will be granted. F.B.

Text of Speech made in Dáil by Danny Healy Rae T.D. 18th October, 2017

Hurricane Ophelia – The need for trees to be cut

Deputy Danny Healy-Rae: Road safety for all users is an important part of the programme for Government. However, trees are growing out of control along every roadside and leaves are falling into and blocking drains. Landowners and farmers should get assistance to clear these trees because clearly it is not safe for anyone to go out on the road to cut trees or clear the sides of the roads.

It is in the programme for Government. It relates to safety for all road users, and we cannot achieve that. We saw what happened last Monday. Moreover, whole rivers are flowing onto roads in times of flood because the rivers have not been cleaned out. I call on the Taoiseach to address these important road safety issues to ensure the safety of all our road users **19th October, 2017**

Hurricane Ophelia – Electricity

Deputy Danny Healy-Rae: The Government aspires to provide services for the elderly, vulnerable and people with disabilities and to protect the incomes of farmers and SMEs. However, services were disrupted this week, and are still disrupted, where people have no power because of trees falling onto lines.

This is promised legislation. All these things apply. Farmers' incomes are being seriously affected this week by the lack of power to milk their cows. It is all because of trees falling onto the lines. It is common sense that the trees must be cut back to a distance that ensures that they will not fall on the power lines. Will the Minister do something about this to prevent it happening again? It is costing the country millions of euro.

(Due to limited space the text of speech on pensions will follow on next week's issue.)
